5/10/68

Dear Lou,

Earlier I told you that the name on a slip a copy of which I sent you has as its first initial a J~~m~~ and that from a letter I received I deduced this stood for Jack. I have since been informed that, regardless of how the last name is spelled, it was not this one but a similar one and that the intial is an L. Comparing it with the initial of the State this seems to be the case. The name is that of Layton Martens.

My tentative plan is to arrive from Kansas City on Braniff 259 at 10:58 5/17/68. If there is any change, I'll let you know. I have had no response to my inquiries about private housing.

Sincerely,

HW
